

# Masters of Teaching and Learning (Secondary)

## Teaching Areas

Students applying for the Master of Teaching and Learning Secondary must complete this form.

**Step 1:** Audit your previous study (by reviewing your transcript/s) against the QCAA Subjects/Teaching Areas table and tick off if you qualify with the disciplinary knowledge for your first or second teaching area.

A minimum of six courses is required for the first teaching area (FTA); with no more than two courses at first year level and no fewer than two courses at third year level<sup>^</sup>.

A minimum of four courses is required for the second teaching area (STA); with no more than two courses at first year level.

**Teaching Areas Audit Table (to year 12) \***

Curriculum Subjects/Teaching Areas	FTA	STA	Curriculum Subjects/Teaching Areas	FTA	STA
Business			Humanities and Social Sciences

Japanese					

\* This table of teaching areas includes those where professional development and experience can be supported. Additional senior subjects such as Food & Nutrition, Hospitality, Engineering, Industrial Technology Skills can be found at <https://www.qcaa.qld.edu.au/senior/new-snr-assessment-te/redev-snr-syll>. These subjects can be negotiated based on prior professional experience and/or additional qualifications but with no guarantee of approval.

<sup>^</sup> For Arts, Sciences and Social Sciences previous study can be considered across the strands but must focus on one.

**Step 2:** Nominate your two teaching areas and list the subjects you have studied in your degree that will support your nominated teaching areas. Your two teaching areas must be from distinct disciplines (learning areas) of the school curriculum as organised in the table above.

	List subjects studied to support nominated First Teaching Area (FTA)	List subjects studied to support nominated Second Teaching Area (STA)
<b>Nominated teaching area:</b> (e.g. Science/Biol; Maths)		
<b>First Teaching Area:</b> Minimum of six subjects studied required  <b>Second Teaching Area:</b> Minimum of four subjects studied required	1.	1.
	2.	2.
	3.	3.
	4.	4.
	5.	5.
	6.	6.
	7.	7.
	8.	8.
