2022 dates for 2023 intake

Doctor of Medicine (MD) – 2022 dates for 2023 intake¹

		2022										2023
		Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	Jan
Applications open (onshore/offshore) – apply directly to the University of Melbourne or via an overseas representative		1/3/22										
Applications close					24/6/22							
Application fee due					24/6/22							
Deadline for final year 2022 results to be submitted (if available)						20/7/22						
Deadline to submit GAMSAT results						20/7/22						
Deadline to submit MCAT results						27/7/22						
Multi Mini Interview (MMI) – check the ‘How to apply’ page for updates	International MMI offers released						Mid-Aug					
	Deadline to accept MMI offer – refer to invitation for specific date						Late-Aug					
	Applicants not shortlisted for MMI notified							Early-Sep				
	International (offshore) MMI date/time released							Early-Sep				
	International (offshore) MMI via online platform							Mid-/Late-Sep				
	International (onshore) MMI date/time released							Late-Sep				
	International (onshore) MMI via online platform							Late-Sep/ Early-Oct				
International (offshore) offers released									Mid-Oct			
International (onshore) offers released									Late-Oct/ Early-Nov			
Deadline to accept and pay deposit (unconditional offers)										7/11/22		
Deadline to meet conditions of offer (offshore conditional offers)										7/11/22		
Deadline to submit deferral requests – only under unforeseen and exceptional circumstances										7/11/22		
Deadline to enrol (unconditional offers)											2/12/22	
Conditional offers	Deadline to meet conditions of offer (onshore conditional offers) – e.g. degree conferral											5/1/23
	Deadline to enrol											11/1/23
Classes commence – indicative date only and subject to change												30/1/23

¹ All dates refer to **11.59pm AEDT** (Australian Eastern Daylight Time). Timelines are subject to changes in response to latest COVID-19 information.

Doctor of Dental Surgery (DDS) – 2022 dates for 2023 intake²

	2022										2023
	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	Jan
Applications open (onshore/offshore) – apply directly to the University of Melbourne or via an overseas representative	1/3/22										
Deadline to <u>submit subject prerequisites for assessment</u>					10/7/22						
Applications close					31/7/22						
Application fee due					31/7/22						
Deadline for final year 2022 results to be submitted (if available)					31/7/22						
Deadline to submit aptitude results (e.g. GAMSAT, DAT, BMAT)					31/7/22						
International offers released							Early-Sep				
Deadline to accept and pay deposit (unconditional offers) – refer to offer letter for specific deadline							Mid-/Late-Sep				
Deadline to meet conditions of offer (offshore conditional offers)								8/11/22			
Deadline to enrol (unconditional offers)										3/12/22	
Deadline to meet conditions of offer (onshore conditional offers) – e.g. degree conferral and single subject completion of prerequisite requirements										20/12/22	
Additional offers made to fill vacancies										Ongoing	
Deadline to enrol (conditional offers)											6/1/23
Compulsory orientation – indicative day only and subject to change											20-21/1/23
Classes commence – indicative date only and subject to change											24/1/23

² All dates refer to **11.59pm AEDT** (Australian Eastern Daylight Time). Timelines are subject to changes in response to latest COVID-19 information.

Doctor of Physiotherapy (DPT) – 2022 dates for 2023 intake³

		2022										2023	
		Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	Jan	Feb
Applications open (onshore/offshore) – apply directly to the University of Melbourne or via an overseas representative		1/3/22											
Deadline to <u>submit subject prerequisites</u> for assessment					12/6/22								
Applications close						3/7/22							
Application fee due						3/7/22							
Deadline for final year 2022 results to be submitted (if available)						3/7/22							
Multi Mini Interview (MMI) – check the ‘How to apply’ page for updates	International MMI offers released						13/8/22						
	Applicants not shortlisted for MMI notified						13/8/22						
	International MMI main round (all cohorts)						17-31/8/22						
All international offers released								Late-Sep					
Deadline to accept and pay deposit (unconditional offers) – refer to offer letter for specific deadline									Early/Mid-Oct				
Deadline to meet conditions of offer (offshore conditional offers)										8/11/22			
Additional offers made to fill vacancies										Ongoing			
Deadline to enrol (unconditional offers)											1/12/22		
Conditional offers	Deadline to meet conditions of offer (onshore conditional offers) – e.g. degree conferral, single subject completion of prerequisite requirements										20/12/22		
	Deadline to enrol											6/1/23	
Orientation – indicative day only and subject to change													11/2/23
Classes commence – indicative date only and subject to change													6/2/23

³ All dates refer to **11.59pm AEDT** (Australian Eastern Daylight Time). Timelines are subject to changes in response to latest COVID-19 information.

Doctor of Optometry (OD) – 2022 dates for 2023 intake⁴

		2022										2023	
		Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	Jan	Feb
Applications open (onshore/offshore) – apply directly to the University of Melbourne or via an overseas representative				2/5/22									
Deadline to submit subject prerequisites for assessment						8/7/22							
Applications close						29/7/22							
Application fee due						29/7/22							
Deadline for final year 2022 results to be submitted (if available)						29/7/22							
Deadline to submit MCAT results						31/7/22							
Deadline to submit GAMSAT and OAT results						31/7/22							
All international offers released								TBC ⁵					
Deadline to accept and pay deposit (unconditional offers) – refer to offer letter for specific deadline									TBC				
Deadline to meet conditions of offer (offshore conditional offers)										TBC			
Additional offers made to fill vacancies										Ongoing			
Deadline to enrol (unconditional offers)											TBC		
Conditional offers	Deadline to meet conditions of offer (onshore conditional offers) – e.g. degree conferral and single subject completion of prerequisite requirements										TBC		
	Deadline to enrol											TBC	
Orientation – indicative day only and subject to change													TBC
Classes commence – indicative date only and subject to change													27/2/23

⁴ All dates refer to **11.59pm AEDT** (Australian Eastern Daylight Time). Timelines are subject to changes in response to latest COVID-19 information.

⁵ Final dates will be confirmed on the Doctor of Optometry (OD) Study page: go.unimelb.edu.au/maw6

MD Handbook page
go.unimelb.edu.au/oif6

Selection criteria for Doctor of Medicine (MD)

1. To be considered for entry, applicants must have completed:

Either –

- An undergraduate degree in any discipline, with studies to have been completed within 10 years of 1 January in the year in which the applicant intends to commence the MD; **OR**
- For applicants whose most recently completed undergraduate degree was completed 10 or more years before 1 January of the year in which the applicant intends to commence the MD – a Graduate Diploma, Masters or PhD degree (or equivalent) completed within 10 years before 1 January of the year in which the applicant intends to commence the MD;

AND

Either⁶ –

- The Graduate Australian Medical Schools Admission Test (GAMSAT)⁷; **OR**
- For international students who are located overseas only, **either** the GAMSAT or the North American Medical Colleges Admission Test (MCAT);

AND

- A Multi Mini Interview (MMI).

2. In ranking applications, the Selection Committee will consider:

- Prior academic performance; **and**
- The GAMSAT or MCAT score; **and**
- The Multi Mini Interview (MMI).

3. The Selection Committee may seek further information to clarify any aspect of an application in accordance with the [Academic Board's rules](#) on the use of selection instruments.

4. Applicants are required to satisfy the [University's English language requirements for postgraduate courses](#). For those applicants seeking to meet these requirements by one of the standard tests approved by the Academic Board, performance band 7 is required.

⁶ Applicants will need to sit one of these tests no more than two years before commencing the MD.

⁷ International recipients of the [Melbourne Chancellor's Scholarship](#) and international applicants eligible for the [Guaranteed Entry Pathway](#) do **not** need to sit the GAMSAT.

English language requirements

All applicants must meet the [University's minimum English language requirements](#).

GAMSAT/MCAT

All international applicants residing in Australia at the time of application must sit the GAMSAT. MCAT scores cannot be used by these applicants. MCAT scores can only be used by international applicants who are **not residing in Australia** at the time of application.

Multi Mini Interview (MMI)

As per the published entry requirements for the Doctor of Medicine (MD), shortlisted applicants will be invited to interview for this course. Please refer to the 'Doctor of Medicine Application of Interview in Course Selection Guidelines' document on the [Doctor of Medicine Entry requirements webpage](#) (under the 'Further information' heading) for details on how the results from the MMI are applied to the MD applications.

Clinical School Zones

The [University of Melbourne's clinical schools](#) are located in affiliated teaching hospitals, where Doctor of Medicine (MD) students will spend the bulk of the clinical years of the course. These schools are grouped into two clinical school zones:

- Metro zone (Inner-East and North-West)
- Rural zones

Please note, due to funding arrangements for the Rural Clinical School, **successful international applicants will only be allocated to the Metro zone**. Specific clinical schools within the Metro zone are based in the Inner-East and North-West.

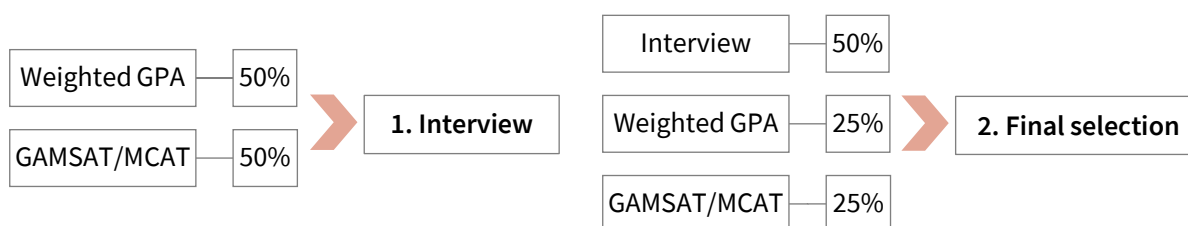

Applicants are advised to read through the [Clinical School Zone allocation and Clinical School allocation policy and procedure](#) for more information.

Notes

1. The Selection Committee will shortlist applicants for the Multi Mini Interview (MMI) on the basis of their performance in previous studies, using a Grade Point Average (GPA) computed in a manner approved by the Academic Board for the Doctor of Medicine (see **Note 2** below), and their results in the GAMSAT or MCAT. All sections in the GAMSAT will be weighted equally to determine the GAMSAT score.

Offers will be made on the basis of a combined ranked list where the interview will contribute 50%, the GPA will contribute 25%, and GAMSAT (or MCAT) will contribute 25% to the final ranking after interview.

Weightage for the standard MD:

The minimum entry requirements are:

- A minimum GPA of 5; **and**
- A minimum GAMSAT score of 50 in each of the three sections of the GAMSAT; **or**
- A minimum MCAT score of 492 – *for international students who are located overseas only*

These are minimum entry requirements only; selection into the course is highly competitive.

2. Except for:

- (i) Applicants eligible under the Guaranteed Pathway; and
- (ii) As explicitly provided for under **Note 3** below,

the Grade Point Average (GPA) used to rank applicants on academic merit based on their previous tertiary studies will be computed in the following way:

- The most recent bachelors degree results (including Honours⁸) will be used for the purposes of calculating the GPA regardless of any subsequent graduate studies completed.
- The GPA will be measured by considering the last three years of the applicant's undergraduate coursework studies (including Honours).
- Weightings will be applied by weighting the first of the final three years by 1, the second of the final three years by 2, and the final year by 2.

Please refer to the next page for details on the treatment of results from 2020 and 2021.

⁸ Treatment of Honours in selection for the Doctor of Medicine (MD)

GPA will be measured by considering the last three years of the applicant's undergraduate coursework studies, only including Honours where the Honours degree is completed by the end of Semester 1 in the year of application, and the results are available in time for selection.

If an Honours degree is not completed by mid-year in the year of application, then weightings will be applied by weighting the first of the final three pre-honours undergraduate years by 1, the second of the final three years by 2, and the final year by 2.

Results from 2020 & 2021

2020 results before COVID-19 pandemic

- Results for 2020 subjects completed before the COVID-19 pandemic (before 1 April 2020) will be included in GPA calculations for 2022 and all future intakes.
- Results for Honours completed in 2020 will be included in GPA calculations for 2022 and all future intakes.

2020 results during COVID-19 pandemic

- All other 2020 subject results will be excluded from GPA calculations for 2022 and all future intakes, with the exception of Honours subjects, which are eligible for inclusion.

2021 results

- Results for all subjects completed in 2021 will be included in GPA calculations for 2023 and all future intakes. This is applicable from 2022 for all future intakes.

Sample scenarios

- If an applicant completed their final year of undergraduate study in 2020, weightings will be applied by weighting the first of the final three years by 1, the second of the final three years by 2, and subjects completed before the pandemic in the final year by 2.
- If an applicant completed their penultimate year of undergraduate study in 2020, weightings will be applied by weighting the first of final three years by 1, subjects completed before the pandemic in the second of the final three years by 2, and the final year by 2.
- If an applicant completed their first year (of the final three years) of undergraduate study in 2020, weightings will be applied by weighting subjects completed before the pandemic in the first of the final three years by 1, the second of the final three years by 2, and the final year by 2.

3. Students applying for the **Doctor of Medicine**, Doctor of Dental Surgery, Doctor of Physiotherapy or Doctor of Optometry from the University of Melbourne undergraduate degrees of:

- Bachelor of Arts;
- Bachelor of Biomedicine;
- Bachelor of Commerce;
- Bachelor of Design;
- Bachelor of Environments;
- Bachelor of Agriculture;
- Bachelor of Music; or
- Bachelor of Science,

who meet entry and course requirements for a guaranteed place are admitted subject only to:

- Meeting any minimum GPA as prescribed by the Academic Board; **and**

- Satisfactory performance at an interview to demonstrate adequate communication skills – for *Doctor of Medicine and Doctor of Physiotherapy only*; **and**
 - Completion of [relevant prerequisites](#) on the first attempt – for *Doctor of Dental Surgery, Doctor of Physiotherapy and Doctor of Optometry only*. As of the 2022 intake, applicants will not be required to complete prerequisite subjects for the *Doctor of Medicine*. These changes are in line with the [proposed updates to the curriculum](#).
4. The Selection Committee may re-rank applicants with a high level of performance in postgraduate studies in a cognate area subject to the following:
- Postgraduate study must have been completed within 10 years of commencement of the **Doctor of Medicine**, Doctor of Dental Surgery or Doctor of Physiotherapy; **and**
 - Postgraduate study must be the equivalent of at least a 1-year full time program; **and**
 - Postgraduate study must be in a discipline that builds upon studies completed at the undergraduate level; **and**
 - Postgraduate study must be in a health related or biological sciences discipline.

The quotas of places available for selection of applicants re-ranked on the basis of postgraduate study as prescribed below are set initially as follows:

- (a) **Doctor of Medicine** – up to 10 places
- (b) Doctor of Dental Surgery – up to 2 places
- (c) Doctor of Physiotherapy – up to 3 places

Re-ranked applicants not selected on this basis, who otherwise satisfy the selection criteria, will be considered on the basis of their undergraduate results.

The Selection Committee is not required to fill the quotas and any unused places will be allocated as normal.

Selection guidelines

Please refer to the ‘Doctor of Medicine Selection Guidelines’ document on the [Doctor of Medicine Entry requirements webpage](#) (under the ‘Further information’ heading).

Quotas

In 2023, the Doctor of Medicine (MD) expects to have a **quota of 60 international places available** and 285 domestic places available (includes 45 Australian full fee places and 240 Commonwealth Supported Places). This quota is a guide only and is subject to change.

Selection criteria for Doctor of Dental Surgery (DDS)

1. To be considered for entry, applicants must have completed:

Either –

- An undergraduate degree in any discipline, with studies to have been completed within 10 years of 1 January in the year in which the applicant intends to commence the DDS; **OR**
- For applicants whose most recently completed undergraduate degree was completed 10 or more years before 1 January of the year in which the applicant intends to commence the DDS – a Graduate Diploma, Masters or PhD degree (or equivalent) completed within 10 years before 1 January of the year in which the applicant intends to commence the DDS;

AND

- [Prerequisite studies](#) in **Anatomy, Physiology** and **Biochemistry** at second year level (or equivalent; one subject of each), with prerequisite subjects to have been completed within 10 years of commencing the DDS;

AND

Either⁹ –

- The Graduate Australian Medical Schools Admission Test (GAMSAT)¹⁰; **OR**
- For international students who are located overseas only¹¹, **either**:
 - the GAMSAT; **or**
 - the United States DAT (Dental Admission Test); **or**
 - the Canadian DAT (Dental Aptitude Test); **or**
 - the UK GAMSAT (Graduate Medical School Admission Test); **or**
 - the UK BMAT (Biomedical Admissions Test).

2. In ranking applications, the Selection Committee will consider:

- Prior academic performance; **and**
- The GAMSAT, US DAT, Canadian DAT, UK GAMSAT or UK BMAT score.

3. The Selection Committee may seek further information to clarify any aspect of an application in accordance with the [Academic Board's rules](#) on the use of selection instruments.

⁹ Applicants will need to sit one of these tests no more than two years before commencing the DDS.

¹⁰ International recipients of the [Melbourne Chancellor's Scholarship](#) and international applicants eligible for the [Guaranteed Entry Pathway](#) do **not** need to sit the GAMSAT.

¹¹ MCAT scores are no longer accepted for entry into the DDS.

- Applicants are required to satisfy the [University's English language requirements for postgraduate courses](#). For those applicants seeking to meet these requirements by one of the standard tests approved by the Academic Board, performance band 7 is required.

English language requirements

All applicants must meet the [University's minimum English language requirements](#).

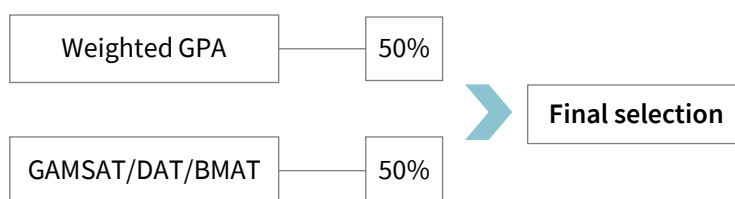

GAMSAT and other aptitude tests

All international applicants residing in Australia at the time of application must sit the GAMSAT. Scores from other aptitude tests cannot be used by these applicants. Scores from other aptitude tests can only be used by international applicants who are **not residing in Australia** at the time of application.

Notes

- The performance of applicants in their previous studies will be assessed using a Grade Point Average (GPA) computed in a manner approved by the Academic Board for the DDS (see **Note 2 below**).

Offers will be made on the basis of a combined ranked list where rank by GPA and rank by GAMSAT, DAT or BMAT score are given equal weighting.

There are no discrete cut-off marks for the GPA, GAMSAT, DAT or BMAT.

No minimum scores have been set for the DDS.

- Except for:
 - Applicants eligible under the Guaranteed Pathway; and
 - As explicitly provided for under **Note 3** below,

the GPA used to rank applicants on academic merit based on their previous tertiary studies will be computed in the following way:

- The most recent bachelors degree results (including Honours) will be used for the purposes of calculating the GPA regardless of any subsequent graduate studies completed.
- The GPA will be measured by considering the last three years of the applicant's undergraduate coursework studies (including Honours).
- Weightings will be applied by weighting the first of the final three years by 1, the second of the final three years by 2, and the final year by 2.

Please refer to the next page for details on the treatment of results from 2020 and 2021.

Results from 2020 & 2021

2020 results before COVID-19 pandemic

- Results for 2020 subjects completed before the COVID-19 pandemic (before 1 April 2020) will be included in GPA calculations for 2022 and all future intakes.
- Results for Honours completed in 2020 will be included in GPA calculations for 2022 and all future intakes.

2020 results during COVID-19 pandemic

- All other 2020 subject results will be excluded from GPA calculations for 2022 and all future intakes, with the exception of Honours subjects, which are eligible for inclusion.

2021 results

- Results for all subjects completed in 2021 will be included in GPA calculations for 2023 and all future intakes. This is applicable from 2022 for all future intakes.

Sample scenarios

- If an applicant completed their final year of undergraduate study in 2020, weightings will be applied by weighting the first of the final three years by 1, the second of the final three years by 2, and subjects completed before the pandemic in the final year by 2.
- If an applicant completed their penultimate year of undergraduate study in 2020, weightings will be applied by weighting the first of final three years by 1, subjects completed before the pandemic in the second of the final three years by 2, and the final year by 2.
- If an applicant completed their first year (of the final three years) of undergraduate study in 2020, weightings will be applied by weighting subjects completed before the pandemic in the first of the final three years by 1, the second of the final three years by 2, and the final year by 2.

3. Students applying for the Doctor of Medicine, **Doctor of Dental Surgery**, Doctor of Physiotherapy or Doctor of Optometry from the University of Melbourne undergraduate degrees of:

- Bachelor of Arts;
- Bachelor of Biomedicine;
- Bachelor of Commerce;
- Bachelor of Design;
- Bachelor of Environments;
- Bachelor of Agriculture;
- Bachelor of Music; or
- Bachelor of Science,

who meet entry and course requirements for a guaranteed place are admitted subject only to:

- Meeting any minimum GPA as prescribed by the Academic Board; **and**

- Satisfactory performance at an interview to demonstrate adequate communication skills – *for Doctor of Medicine and Doctor of Physiotherapy only*; **and**
 - Completion of [relevant prerequisites](#) on the first attempt – *for Doctor of Dental Surgery, Doctor of Physiotherapy and Doctor of Optometry only*.
4. The Selection Committee may re-rank applicants with a high level of performance in postgraduate studies in a cognate area subject to the following:
- Postgraduate study must have been completed within 10 years of commencement of the Doctor of Medicine, **Doctor of Dental Surgery** or Doctor of Physiotherapy; **and**
 - Postgraduate study must be the equivalent of at least a 1-year full time program; **and**
 - Postgraduate study must be in a discipline that builds upon studies completed at the undergraduate level; **and**
 - Postgraduate study must be in a health related or biological sciences discipline.

The quotas of places available for selection of applicants re-ranked on the basis of postgraduate study as prescribed below are set initially as follows:

- (a) Doctor of Medicine – up to 10 places
- (b) **Doctor of Dental Surgery** – up to 2 places
- (c) Doctor of Physiotherapy – up to 3 places

Re-ranked applicants not selected on this basis, who otherwise satisfy the selection criteria, will be considered on the basis of their undergraduate results.

The Selection Committee is not required to fill the quotas and any unused places will be allocated as normal.

Quotas

In 2023, the Doctor of Dental Surgery (DDS) expects to have a **total quota of 98 places available** (includes domestic and international students). This quota is a guide only and is subject to change.

DPT Handbook page
go.unimelb.edu.au/zo46

Selection criteria for Doctor of Physiotherapy (DPT)

1. To be considered for entry, applicants must have completed:

Either –

- An undergraduate degree in any discipline, with studies to have been completed within 10 years of 1 January in the year in which the applicant intends to commence the DPT; **OR**
- For applicants whose most recently completed undergraduate degree was completed 10 or more years before 1 January of the year in which the applicant intends to commence the DPT – a Graduate Diploma, Masters or PhD degree (or equivalent) completed within 10 years before 1 January of the year in which the applicant intends to commence the DPT;

AND

- [Prerequisite studies](#) in **Human Anatomy** and **Human Physiology** (or equivalent; one subject of each), with prerequisite subjects to have been completed within 10 years of commencing the DPT;

AND

- A Multi Mini Interview (MMI) – *may be restricted to shortlisted applicants.*

2. In ranking applications, the Selection Committee will consider:

- Prior academic performance; **and**
- The Multi Mini Interview (MMI).

3. The Selection Committee may seek further information to clarify any aspect of an application in accordance with the [Academic Board's rules](#) on the use of selection instruments.

4. Applicants are required to satisfy the [University's English language requirements for postgraduate courses](#). For those applicants seeking to meet these requirements by one of the standard tests approved by the Academic Board, performance band 7 is required.

English language requirements

All applicants must meet the [University's minimum English language requirements](#).

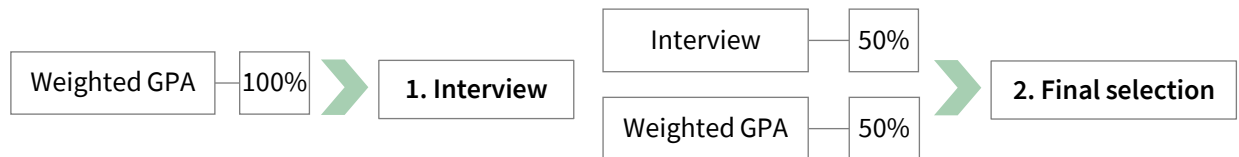

Notes

1. The performance of applicants in their previous studies will be assessed using a Grade Point Average (GPA) computed in a manner approved by the Academic Board for the DPT (see **Note 2** below).

The GPA will be used to determine which applicants are shortlisted for the Multi Mini Interview (MMI).

Offers will be made on the basis of a combined ranked list where rank by GPA and rank by interview are given equal weighting.

No minimum GPA has been set for the DPT.

2. Except for:
 - (i) Applicants eligible under the Guaranteed Pathway; and
 - (ii) As explicitly provided for under **Note 3** below,

the Grade Point Average (GPA) used to rank applicants on academic merit based on their previous tertiary studies will be computed in the following way:

- The most recent bachelors degree results (including Honours) will be used for the purposes of calculating the GPA regardless of any subsequent graduate studies completed.
- The GPA will be measured by considering the last three years of the applicant's undergraduate coursework studies (including Honours).
- Weightings will be applied by weighting the first of the final three years by 1, the second of the final three years by 2, and the final year by 2.

Please refer to the next page for details on the treatment of results from 2020 and 2021.

Results from 2020 & 2021

2020 results before COVID-19 pandemic

- Results for 2020 subjects completed before the COVID-19 pandemic (before 1 April 2020) will be included in GPA calculations for 2022 and all future intakes.
- Results for Honours completed in 2020 will be included in GPA calculations for 2022 and all future intakes.

2020 results during COVID-19 pandemic

- All other 2020 subject results will be excluded from GPA calculations for 2022 and all future intakes, with the exception of Honours subjects, which are eligible for inclusion.

2021 results

- Results for all subjects completed in 2021 will be included in GPA calculations for 2023 and all future intakes. This is applicable from 2022 for all future intakes.

Sample scenarios

- If an applicant completed their final year of undergraduate study in 2020, weightings will be applied by weighting the first of the final three years by 1, the second of the final three years by 2, and subjects completed before the pandemic in the final year by 2.
- If an applicant completed their penultimate year of undergraduate study in 2020, weightings will be applied by weighting the first of final three years by 1, subjects completed before the pandemic in the second of the final three years by 2, and the final year by 2.
- If an applicant completed their first year (of the final three years) of undergraduate study in 2020, weightings will be applied by weighting subjects completed before the pandemic in the first of the final three years by 1, the second of the final three years by 2, and the final year by 2.

3. Students applying for the Doctor of Medicine, Doctor of Dental Surgery, **Doctor of Physiotherapy** or Doctor of Optometry from the University of Melbourne undergraduate degrees of:

- Bachelor of Arts;
- Bachelor of Biomedicine;
- Bachelor of Commerce;
- Bachelor of Design;
- Bachelor of Environments;
- Bachelor of Agriculture;
- Bachelor of Music; or
- Bachelor of Science,

who meet entry and course requirements for a guaranteed place are admitted subject only to:

- Meeting any minimum GPA as prescribed by the Academic Board; **and**

- Satisfactory performance at an interview to demonstrate adequate communication skills – *for Doctor of Medicine and Doctor of Physiotherapy only*; **and**
 - Completion of [relevant prerequisites](#) on the first attempt – *for Doctor of Dental Surgery, Doctor of Physiotherapy and Doctor of Optometry only*.
4. The Selection Committee may re-rank applicants with a high level of performance in postgraduate studies in a cognate area subject to the following:
- Postgraduate study must have been completed within 10 years of commencement of the Doctor of Medicine, Doctor of Dental Surgery or **Doctor of Physiotherapy**; **and**
 - Postgraduate study must be the equivalent of at least a 1-year full time program; **and**
 - Postgraduate study must be in a discipline that builds upon studies completed at the undergraduate level; **and**
 - Postgraduate study must be in a health related or biological sciences discipline.

The quotas of places available for selection of applicants re-ranked on the basis of postgraduate study as prescribed below are set initially as follows:

- (a) Doctor of Medicine – up to 10 places
- (b) Doctor of Dental Surgery – up to 2 places
- (c) **Doctor of Physiotherapy** – up to 3 places

Re-ranked applicants not selected on this basis, who otherwise satisfy the selection criteria, will be considered on the basis of their undergraduate results.

The Selection Committee is not required to fill the quotas and any unused places will be allocated as normal.

Quotas

In 2023, the Doctor of Physiotherapy (DPT) expects to have a **total quota of 120 places available** (includes domestic and international students). This quota is a guide only and is subject to change.

Selection criteria for Doctor of Optometry (OD)

1. To be considered for entry, applicants must have completed:

Either –

- An undergraduate degree in any discipline, with studies to have been completed within 10 years of 1 January in the year in which the applicant intends to commence the OD; **OR**
- For applicants whose most recently completed undergraduate degree was completed 10 or more years before 1 January of the year in which the applicant intends to commence the OD – a Graduate Diploma, Masters or PhD degree (or equivalent) completed within 10 years before 1 January of the year in which the applicant intends to commence the OD;

AND

- [Prerequisite studies](#) in **one or more relevant Biological Science disciplines** at second or third year level (or equivalent; three subjects in total), with prerequisite subjects to have been completed within 10 years of commencing the OD;

AND

Either¹² –

- The Graduate Australian Medical Schools Admission Test (GAMSAT)¹³; **OR**
- For international students who are located overseas only, **either**:
 - the GAMSAT; **or**
 - the North American Medical College Admissions Test (MCAT); **or**
 - the United States Optometry Admission Test (OAT).

2. In ranking applications, the Selection Committee will consider:

- Prior academic performance; **and**
- The GAMSAT, MCAT or OAT score.

3. The Selection Committee may seek further information to clarify any aspect of an application in accordance with the [Academic Board's rules](#) on the use of selection instruments.

¹² Applicants will need to sit one of these tests no more than two years before commencing the OD.

¹³ International recipients of the [Melbourne Chancellor's Scholarship](#) and international applicants eligible for the [Guaranteed Entry Pathway](#) do **not** need to sit the GAMSAT.

- Applicants are required to satisfy the [University's English language requirements for postgraduate courses](#). For those applicants seeking to meet these requirements by one of the standard tests approved by the Academic Board, performance band 6.5 is required.

English language requirements

All applicants must meet the [University's minimum English language requirements](#).

GAMSAT/MCAT/OAT

All international applicants residing in Australia at the time of application must sit the GAMSAT. MCAT/OAT scores cannot be used by these applicants. MCAT/OAT scores can only be used by international applicants who are **not residing in Australia** at the time of application.

Notes

- Successful applicants with relevant prior study or professional practice may be granted up to 200 credit points of [Advanced Standing \(AS\)](#) towards the OD as follows:
 - 100 credit points of AS** will normally be granted to applicants with an undergraduate degree with a major in optometry or vision science (or equivalent).
 - 200 credit points of AS** will normally be granted to applicants who are registered as an optometrist with the Optometry Board of Australia and have at least three years of documented clinical practice as a registered optometrist within the last 10 years.
- The Weighted Average Mark (WAM) is calculated using the most recent eligible 200 credit points (equivalent to two years full time study) completed in an undergraduate and/or Honours degree.

In the WAM calculation:

- The most recently completed 100 credit points (equivalent to 1-year full time study) are weighted by 2; and
- The next most recently completed 100 credit points are weighted by 1.
- Studies completed concurrently will be selected for inclusion in the most recent 100 credit points according to performance, starting from the subject with the highest mark.
- Results for failed subjects will also be included in the WAM calculation for the year in which they were studied and will be included in the most recent 100 credit points.

There are no discrete cut-off marks for the WAM, GAMSAT, MCAT or OAT.

No minimum scores have been set for the OD.

Please refer to the next page for details on the treatment of results from 2020 and 2021.

Results from 2020 & 2021

2020 results before COVID-19 pandemic

- Results for 2020 subjects (including Honours subjects) completed before the COVID-19 pandemic will be included in WAM calculations for 2022 and all future intakes.

2020 results during COVID-19 pandemic

- Results for any 2020 subjects completed on or after 1 April 2020 (i.e. during the first nine months of the COVID-19 pandemic) are not eligible for inclusion in WAM calculations, with the exception of Honours subjects, which are eligible for inclusion.

2021 results

- Results for all subjects completed in 2021 will be included in WAM calculations for 2023 and all future intakes. This is applicable from 2022 for all future intakes.

Sample scenarios

- If an applicant completed their final year of undergraduate study in 2020, the most recently completed 100 credit points (equivalent to 1-year full time study) completed prior to the COVID-19 pandemic (including 2020 results completed prior to 1 April 2020 and any Honours results completed in 2020), will be weighted by 2. The next most recently completed 100 credit points (or equivalent) will be weighted by 1.
- If an applicant completed their penultimate year of undergraduate study in 2020, the most recently completed 100 credit points (equivalent to 1-year full time study) will be weighted by 2. The next most recently completed 100 credit points (equivalent to 1-year full time study) completed prior to the COVID-19 pandemic (including 2020 results completed prior to 1 April 2020 and Honours results completed in 2020), will be weighted by 1.

3. Students applying for the Doctor of Medicine, Doctor of Dental Surgery, Doctor of Physiotherapy or **Doctor of Optometry** from the University of Melbourne undergraduate degrees of:

- Bachelor of Arts;
- Bachelor of Biomedicine;
- Bachelor of Commerce;
- Bachelor of Design;
- Bachelor of Environments;
- Bachelor of Agriculture;
- Bachelor of Music; or
- Bachelor of Science,

who meet entry and course requirements for a guaranteed place are admitted subject only to:

- Meeting any minimum GPA as prescribed by the Academic Board; **and**
- Satisfactory performance at an interview to demonstrate adequate communication skills – *for Doctor of Medicine and Doctor of Physiotherapy only*; **and**

- Completion of [relevant prerequisites](#) on the first attempt – for *Doctor of Dental Surgery, Doctor of Physiotherapy and Doctor of Optometry* only.

Quotas

In 2023, the Doctor of Optometry (OD) expects to have a **total quota of 78 places available** (includes domestic and international students). This quota is a guide only and is subject to change.

Additional details

Prerequisites

Applicants for the **Doctor of Dental Surgery (DDS)**, **Doctor of Physiotherapy (DPT)** and **Doctor of Optometry (OD)** are required to have completed prerequisite subjects within 10 years of commencing the course. For example, if an applicant applies for the 2023 intake, the prerequisite subjects must have been completed from 2013 onwards.

- DDS: Approved prerequisite second year level (or equivalent) studies in **Anatomy, Physiology** and **Biochemistry** (one subject of each).
- DPT: Approved subjects in **Human Anatomy** and **Human Physiology** (or equivalent; one subject of each).
- OD: Approved subjects in **one or more relevant Biological Science disciplines** at second or third year level (or equivalent; three subjects in total)

FAQs

Q: How do I check if the subjects I have studied satisfy the prerequisite requirement?

The [Prerequisites website](#) includes more information about prerequisites, including lists of subjects which have already been assessed to determine equivalency (approved and non-approved subjects).

Applicants should check the available lists to determine whether they are eligible for consideration.

Q: What if a subject I have studied is not on the pre-assessed prerequisites list?

If a subject you have studied is not on the relevant pre-assessed prerequisite list, you can [submit the subject for assessment before the course application closing date](#). Late prerequisite assessment submissions will not be assessed and as a result, the course application will be excluded.

Applicants who have not submitted documentation for prerequisite assessment by the course application closing date or have not provided evidence of relevant completed prerequisite subjects will be deemed to have failed the prerequisite requirements and will not be eligible for selection into the DDS, DPT or OD.

Q: What if I have not completed approved prerequisite subjects at the time of application?

If you have not satisfied the prerequisite requirements at the time of application, you may still submit a course application.

In your course application, you must provide evidence of enrolment in approved prerequisite subjects in the second half of the year. Please note, [offshore applicants must meet the prerequisite conditions by 8 November 2022](#).

Q: Does the University of Melbourne offer any subjects to satisfy the prerequisite requirements?

Yes. The following subjects satisfy the prerequisite requirements:

- **Anatomy:** [ANAT20006 Principles of Human Structure](#)
- **Physiology:** [PHYS20008 Human Physiology](#)
- **Biochemistry:** [BCMB20002 Biochemistry and Molecular Biology](#)

Please note, graduates of the Bachelor of Biomedicine at the University of Melbourne automatically meet the prerequisite requirements.

Undergraduate degrees

All applicants must have completed, or be in the final year of, an undergraduate degree.

Accelerated entry and conversion degrees may be accepted, depending on the level and extent of credited study, at the discretion of the Selection Committee.

What qualifies as an undergraduate degree?

An undergraduate degree is defined as **a degree of at least three years in duration when studied full time (or equivalent), from a recognised university.**

Australian undergraduate degrees must be from a [Commonwealth accredited institution](#).

Overseas degrees must be recognised by the [Australian Department of Education and Training Qualifications Recognition Policy Unit](#) as equivalent to an Australian undergraduate degree.

To be considered for entry into the Doctor of Medicine (MD), Doctor of Dental Surgery (DDS), Doctor of Physiotherapy (DPT) or Doctor of Optometry (OD), applicants must have completed:

Either –

- An undergraduate degree in any discipline, with studies to have been completed within 10 years of 1 January in the year in which the applicant intends to commence the MD, DDS, DPT or OD; **OR**
- For applicants whose most recently completed undergraduate degree was completed 10 or more years before 1 January of the year in which the applicant intends to commence the MD, DDS, DPT or OD, a Graduate Diploma, Masters or PhD degree (or equivalent) completed within 10 years before 1 January of the year in which the applicant intends to commence the MD, DDS, DPT or OD.

Transcript requirements

Applicants are required to submit the following documentation by the [course application closing deadline](#):

- **Official academic transcripts**
- **Official aptitude test results** – e.g. GAMSAT
- **Grading scales**

Official transcripts are required to show degree conferral information if they have been completed.

Applicants are required to include official transcripts and grading scales from:

- Exchange studies;
- Cross-institutional studies; or
- Any other tertiary studies that have been credited towards the key degree (i.e. the degree used for GPA/WAM calculation).

FAQs

Q: What if I will only be completing my undergraduate degree in 2022?

If you will be completing an undergraduate degree in 2022, please submit official transcripts and grading scales for all your studies so far. You must also provide evidence of enrolment for Semester 2, 2022 by the course application closing deadline.

Q: Do I need to provide official transcripts for my postgraduate studies?

If you are currently enrolled in or have completed postgraduate studies (e.g. Graduate Diploma, Masters degree or PhD), you are required to include official transcripts and grading scales for these studies too.

Grade Point Average (GPA)

This section is relevant to the Doctor of Medicine (MD), Doctor of Dental Surgery (DDS) and Doctor of Physiotherapy (DPT). The Doctor of Optometry (OD) uses Weighted Average Mark (WAM) not GPA. For more information, please see the Selection Criteria section for each course.

All MD and DDS applicants will have their GPA calculated in accordance with the guidelines published on the [Graduate Entry Medical School Admissions System \(GEMSAS\) website](#). DPT applicants can find information about GPA calculation in the [‘Entry requirements’ section of the DPT Study page](#).

- The GPA indicates the level of performance in the qualifying degree.
- There is no differentiation of GPA between institutions or courses.
- No preference is given to graduates with particular undergraduate degrees.

It should be emphasised that a science major is **not** a prerequisite. Academic excellence in other areas, such as the humanities and social sciences, is encouraged and recognised.

The University of Melbourne encourages applications from individuals with diverse educational backgrounds, who will bring a variety of talents and interests to the profession.

GPA calculation

Applicants who completed their undergraduate degrees in Australia or New Zealand may wish to calculate their GPA using the [GEMSAS GPA Calculator](#).

Applicants who completed their undergraduate degrees outside Australia and New Zealand will **not** be able to calculate a GPA for themselves.

Please note, any GPA calculated by an applicant will be an estimated GPA and used only for the information of the applicant.

Please refer to the next page for details on the treatment of results from 2020 and 2021.

Results from 2020 & 2021

2020 results before COVID-19 pandemic

- Results for 2020 subjects (including Honours subjects) completed before the COVID-19 pandemic will be included in GPA/WAM calculations for 2022 and all future intakes.

2020 results during COVID-19 pandemic

- All other 2020 subject results are not eligible for inclusion in GPA/WAM calculations, with the exception of Honours subjects, which are eligible for inclusion. This is applicable from 2022 for all future intakes.

2021 results

- Results for all subjects completed in 2021 will be included in GPA/WAM calculations for 2023 and all future intakes. This is applicable from 2022 for all future intakes.

Multi Mini Interview (MMI)

This section is relevant to the Doctor of Medicine (MD) and Doctor of Physiotherapy (DPT).

The MMI consists of:

- 8 separate interview stations;
- Each station takes 5 minutes to complete; and
- Each station comprises of several questions on the same topic.

The duration of the whole interview process is **approximately 50 minutes**, but applicants are required to be in attendance for a few hours on their allocated MMI day.

The MMI is designed to **assess non-cognitive qualities**, including:

- Professionalism;
- Motivation;
- Communication skills;
- Ability to empathise and provide support;
- Attitude towards collaboration; and
- Aptitude for decision making.

Doctor of Medicine (MD) applicants

- **Shortlisted applicants:** All shortlisted applicants will be invited to participate in an online recorded MMI. There will be no face-to-face interviews.
 - *Shortlisted offshore applicants:* Interviews will take place in mid/late September.
 - *Shortlisted onshore applicants:* Interviews will take place in late September/early October.

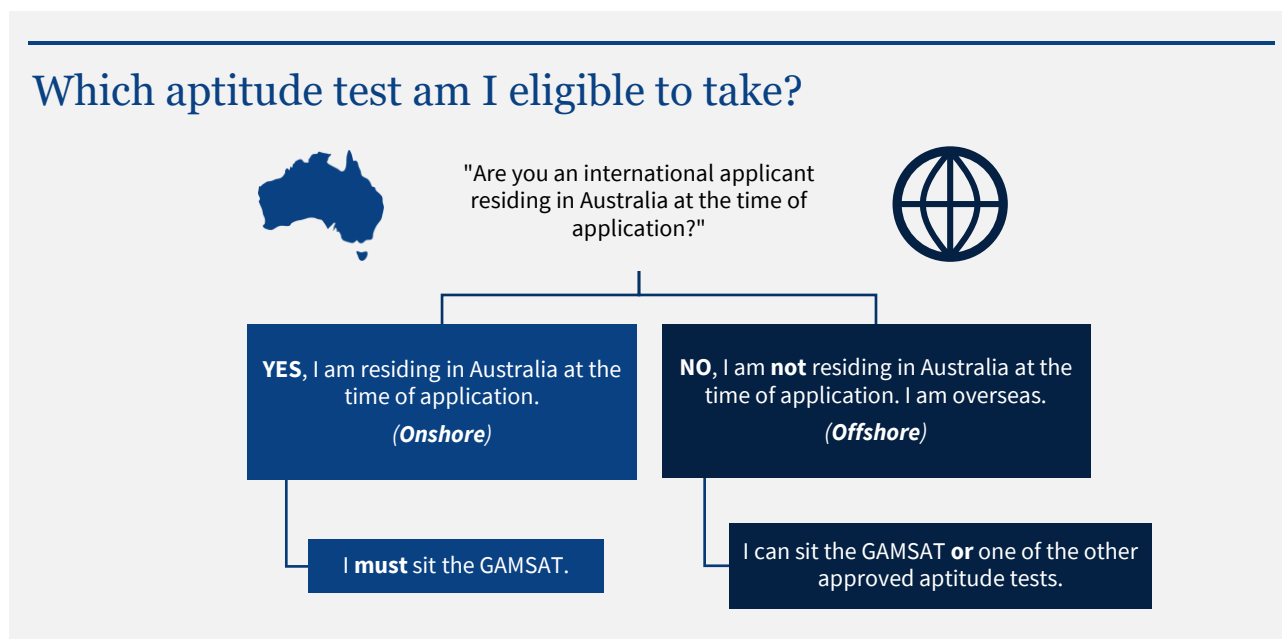

Doctor of Physiotherapy (DPT) applicants

- **Shortlisted applicants:** All shortlisted applicants will be interviewed online via Zoom. There will be no face-to-face interviews.

Aptitude test

This section is relevant to the **Doctor of Medicine (MD)**, **Doctor of Dental Surgery (DDS)** and **Doctor of Optometry (OD)**. For more information, please see the **Selection Criteria** section for each course.

Onshore applicants

- All onshore applicants (i.e. international applicants residing in Australia at the time of application) must sit the [Graduate Australian Medical Schools Admission Test \(GAMSAT\)](#).
- **GAMSAT results are valid for two years.** For example, if an applicant sat the test in March 2021, they may use the results obtained to apply for a graduate entry course commencing in 2022 and/or 2023. As such, GAMSAT 2020 results are also valid for use in applications to courses commencing in 2022.

Application period	Apply in 2022 for 2023 commencement	Apply in 2023 for 2024 commencement
Valid results	<ul style="list-style-type: none"> ▶ GAMSAT September 2020 ▶ GAMSAT March 2021 ▶ GAMSAT September 2021 ▶ GAMSAT March 2022 	<ul style="list-style-type: none"> ▶ GAMSAT September 2021 ▶ GAMSAT March 2022 ▶ GAMSAT September 2022 ▶ GAMSAT March 2023

- Applicants can [check the validity of their GAMSAT results on the GAMSAT website](#).
- The GAMSAT is held in March and September, and the differentiation between Australia, UK and Ireland has been removed.
- GAMSAT results show a score for each of the three test sections and an 'Overall Score'.

- Applicants for the MD and DDS are assessed on the basis of an **average GAMSAT score**, where each of the three sections are weighted equally (i.e. the **Overall Score**).
- Results from the following aptitude tests **cannot** be used by onshore applicants:
 - the North American Medical Colleges Admission Test (MCAT);
 - the United States DAT (Dental Admission Test);
 - the Canadian DAT (Dental Aptitude Test);
 - the United States/Canadian OAT (Optometry Admission Test);
 - the UK GAMSAT (Graduate Medical School Admission Test); or
 - the UK BMAT (Biomedical Admissions Test).

Have questions about the GAMSAT?

Please contact ACER if you have any enquiries about the GAMSAT.

Email: gamsat@acer.org

Website: gamsat.acer.org

Offshore applicants

Offshore applicants have the option of taking other approved aptitude tests, besides the GAMSAT.

Doctor of Medicine (MD)

Besides the GAMSAT, offshore applicants can also take the MCAT.

- MCAT scores can only be used by MD international applicants who are **not** residing in Australia at the time of application (i.e. they are offshore applicants).
- **MCAT scores are valid for two years.** For example, MCAT January 2020 to 19 June 2022 results are valid for applicants who apply for entry in 2023.
- Offshore applicants must submit MCAT scores to the University of Melbourne, **no later than 27 July 2022.**
- Official MCAT score reports must be submitted with both the **verification code** and **AAMC ID number** visible. Unofficial reports or screenshots of MCAT score reports will not be accepted.

Doctor of Dental Surgery (DDS)

Please note, MCAT scores are no longer accepted for entry into the Doctor of Dental Surgery (DDS).

Besides the GAMSAT, offshore applicants can also take the following aptitude tests:

- the United States DAT (Dental Admission Test);
- the Canadian DAT (Dental Aptitude Test);
- the UK GAMSAT (Graduate Medical School Admission Test); or
- the UK BMAT (Biomedical Admissions Test).

The results from these aptitude tests are also valid for two years.

Doctor of Optometry (OD)

Besides the GAMSAT, offshore applicants can also take the following aptitude tests:

- the North American Medical Colleges Admission Test (MCAT); or
 - MCAT scores can only be used by OD international applicants who are **not** residing in Australia at the time of application (i.e. they are offshore applicants).
 - **MCAT scores are valid for two years.** For example, MCAT 2019 to 2020 results are valid for applicants apply for entry in 2023.
 - Offshore applicants must submit MCAT scores to the University of Melbourne, **no later than 31 July 2022.**
 - Official MCAT score reports must be submitted with both the **verification code** and **AAMC ID number** visible. Unofficial reports or screenshots of MCAT score reports will not be accepted.
- the United States OAT (Optometry Admission Test).
 - OAT scores can only be used by OD international applicants who are **not** residing in Australia at the time of application (i.e. they are offshore applicants).
 - **OAT scores are valid for two years.** For example, OAT 2019 to 2020 results are valid for applicants apply for entry in 2023.

Melbourne Chancellor's Scholarship & Guaranteed Entry Pathway

International recipients of the [Melbourne Chancellor's Scholarship](#) and international applicants eligible for the [Guaranteed Entry Pathway](#) do **not** need to sit the GAMSAT.

Conditional offers

Applicants will receive a **conditional offer** if:

- An offer is made where the degree and/or prerequisite subject(s) is not yet complete; or
- The applicant has not met the English language requirements yet.

Please note, if conditions are not met by the date specified on the offer letter, the offer will be withdrawn.

Final GPA/WAM

When final results are received, the final GPA/WAM will be calculated. All applicants will be expected to maintain or exceed their GPA/WAM.

- A Doctor of Medicine, Doctor of Physiotherapy or Doctor of Dental Surgery applicant whose final GPA drops, but only by 0.3 or less, will be considered to have maintained their GPA.
- Likewise, a Doctor of Optometry applicant must maintain or exceed their WAM at time of application in order to have their offer confirmed.

Combined degree (bachelor/bachelor double degree)

Applicants enrolled in a combined degree (bachelor/bachelor double degree), who receive a conditional offer for a place at the University of Melbourne based on that combined degree, **must complete both awards to have their offer confirmed** (i.e. **become an unconditional offer**).

Fees

Information about fees for international students can be found on the [University of Melbourne's Fees and payments website](#), as well as on:

- [Doctor of Medicine – Fees](#)
- [Doctor of Dental Surgery – Fees](#)
- [Doctor of Physiotherapy – Fees](#)
- [Doctor of Optometry – Fees](#)

Open Days and information sessions

More details about our Open Days and course information sessions can be found on the following websites:
