Each year, OzTREKK receives thousands of applications for graduate-entry physiotherapy programs in Australia. We ensure every application we submit is not only eligible, but also considered competitive. Because of this, OzTREKK students are among the most competitive international applicants, having high offer rates.

We have reviewed all applications submitted to the intakes listed below to determine these competitive scores. As OzTREKK submits thousands of applications each year, we are uniquely positioned to gather and share this information with our students. This information is not otherwise available.

IMPORTANT NOTES

Minimum:	Defined by university; cannot apply without
Competitive:	Minimum score that received an offer
GPA:	Based on 4.0 scale for primary bachelor degree; for more information, see GPA Conversions below
GPA Weightings:	Melbourne ranks using weighted GPA based on last 3 years of study; the rest use cumulative GPA
Admissions Style:	Melbourne and Bond pool and rank applications; the rest assess on a rolling basis until program fills
Best Indicators of Success:	Competitive and average scores, not minimums
Prerequisites:	Brackets indicate number of dedicated semesters required to apply. If a program requires 2 anatomy and 2 physiology, it requires 4 semesters for these two subjects; they can not be "shared."
Anatomy:	Always <i>human</i> anatomy. If 2 semesters are required, the university is looking for musculoskeletal and systems anatomy.
